

Dear FCC:

I really do NOT want to see passengers using cell phones on flights - ENOUGH is ENOUGH! Most importantly, I feel it is potentially dangerous and could create terrorist opportunities.

And also - I don't want to deal with business calls, arguments, children blabbering away, etc. Flights are uncomfortable enough without this garbage.

And I would not want to see flight attendants impaired, as they will be if you allow this odious practice. Just say no , no , no to cell phones on airplanes.

Sincerely,
DA
